

Dear parents,

**“Information is power”** and for this reason we are inviting you to a meeting interpreted in Spanish.

We want you to be very well informed of the various opportunities provided in high school and the requirements to take advantage of those opportunities. The more you know about what schools offer to all students, the better you can help your children successfully complete high school and support them in making decisions for after high school.

Did you know that your child can have free access to SPCC (community college) and access to Wingate University for just a fraction of what college actually costs? That your children can leave high school connected to companies that offer them jobs with good salaries? This and other things will be communicated during the meeting. Additionally, you will receive a brochure containing valuable information in Spanish.

Meeting details:

- Day: Tuesday, February 25
- Time: From 6:00 pm to 7:30 pm
- Location: Anson High School Library
- A light meal will be offered.

In the next few days, you will receive a call in Spanish where we can answer any questions you may have and also confirm your attendance at this meeting. This way, we will ensure that we have a package prepared especially for you.

We are waiting for you!
